

## CANNING FACTORY IN LAKEWOOD BIG MONEY PRODUCER

Establishment Completes Most Successful Year of Its Existence and Has Proven Boon to Farmers.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.)  
Lakewood, N. M., Nov. 2.—The Lakewood canning factory has just closed the most successful year of its existence. This year thirty-five cars of canned tomatoes were shipped from Lakewood, mostly to outside markets where the excellence of the Lakewood product is just beginning to be recognized. During the five years of its existence the cannery has shipped 102 cars of finished product, so that this year the record is greater than for any two other years since it was started. The tomatoes have brought a good price this year, and have not had to depend on local markets, as heretofore.

The Lakewood cannery ran five weeks and it has this year, and during that time paid out \$5,500 for wages, and \$7,800 for tomatoes. It is by far the most successful year the factory has had, and its success is a big factor in the life of the little town of Lakewood. It brings prosperity to the people of the Seven Rivers country, by providing a cash market for their products and work at good wages during every fall.

The Lakewood cannery is a product of which the state of New Mexico may well be proud. It is absolutely the finest grown anywhere, and for many years should be enjoyed only in its fresh state, as there was no canning factory near enough to ship to. In order to remedy this condition the citizens of Lakewood went together and erected a small plant, hired competent operatives to operate the work, and the first year produced a brand of canned goods that took the local Peoria valley markets by storm. From then on it has been almost impossible to sell anything but Lakewood tomatoes to Peoria valley people. The second year improvements were made in the factory, more help employed and more raw products handled, and this progress has been noticeable every year since, until today the Lakewood cannery is not only on a solid, substantial, paying basis, but is listed in one of the more important industries in southeastern New Mexico. It is housed in its own concrete building, and has the most modern and up-to-date machinery for all kinds of work from the beginning of the canning process to the last stage of putting on the highest grade of canned goods possible.

The 1915 crop of Lakewood tomatoes is widely distributed, and will produce a call for even greater efforts to supply the demand next year. The very best of Lakewood is a regular customer, and consumes incredible quantities of Lakewood tomatoes every year. Some idea of what a car of canned goods amounts to may be had with it is understood that the factory shipped from Lakewood since the cannery was started contained close to one-half million cans of tomatoes.

**Lights for Artesia Station.**  
Artesia, N. M., Nov. 2.—From all appearances the long-drawn-out fight between the local electric company and the Santa Fe over the matter of rates for lights in the Artesia depot, is nearing the end. A contract with Amtrillo indicates that a contract will soon be signed for a full system of electric lights. The railroad has held out for many months, endeavoring to secure a ten-cent rate when all the business houses are paying fifteen, but it is understood that the contract between the light company and the railroad will call for a fifteen-cent rate.

**Grant County Census Increases.**  
Santa Fe, N. M., Nov. 2.—Grant county reports a school census of 6,351, an increase of 480 over last year; Otero 2,742, an increase of 172; San Juan 2,095, an increase of 115. Eight counties are still outstanding.

## MRS. THOMSON TELLS WOMEN

How She Was Helped During Change of Life by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I am just 52 years of age and during Change of Life I suffered for six years terribly. I tried several doctors but none seemed to give me any relief. Every month the pains were intense in both sides, and made me so weak that I had to go to bed. At last a friend recommended Lydia E. Pinkham's Vegetable Compound to me and I tried it at once and found much relief. After that I had no pains at all and could do my household work and shopping the same as always. For years I have praised Lydia E. Pinkham's Vegetable Compound for what it has done for me, and shall always recommend it as a woman's friend. You are at liberty to use my letter in any way."—Mrs. Thomson, 549 W. Russell St., Philadelphia, Pa.

Change of life is one of the most critical periods of a woman's existence. Women everywhere should remember that there is no other remedy known to carry women so successfully through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## Notes of Interest From State Museum

Santa Fe, Nov. 2.—The Red Book has asked the museum to furnish it with an article on the cliff dwellings tributary to Santa Fe.

Because of the absence of Miss Conrad and of Mrs. I. H. Rapp of the archaeological club the meeting of the archaeological society which had been called for Thursday evening of this week, has been postponed to the latter part of this month. Miss Conrad goes on a ten days' visit with Mrs. M. C. Mechem at Socorro, and Mrs. Rapp goes on a three weeks' automobile tour of Colorado. Mr. and Mrs. Arthur Sullivan will also leave this week on a tour of the points of archaeological interest on the Navajo reservation and to the Grand Canyon.

"Deskbook of the School of Journalism of the University of Missouri" was one of the additions to the museum library today.

The Camera Club of New Mexico met last night at museum and adopted a constitution and by-laws. Sheldon Parsons, of the museum, exhibited eight of eleven paintings he exhibited at El Paso.

The following registered at the museum: Mrs. S. E. Apple, Frances Apple, Harriet K. Williams, R. Parsons, Rochester, N. Y.; A. E. Stevens, Asheville, N. C.; R. P. Bryant, New York; Frank S. Harris, Richard H. Fozz, Canton, N. J.; W. L. Turner, H. A. Hildebrand, Nederland, Colo.; C. M. Olin, W. M. Walsh, Gallup, N. M.; R. Murphy, Las Cruces; M. E. Metz, Pittsburgh, Pa.; V. L. Russell, Chicago; G. D. Magruder, Long Beach, Calif.; L. B. Palmer, Jackson, Mich.; O. R. Goodall, San Francisco.

Dr. Goodall, of San Francisco, supervisor of Indian schools for the Indian bureau, was a visitor at the museum to study its architecture with a view of adapting it to the new library and reading room of the United States Indian industrial school in this city, for which ground is to be broken next week.

## CANNING FACTORY IS DOING BIG BUSINESS

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.)  
Deming, N. M., Nov. 2.—It is estimated that the Hondale canning factory's output will not close to \$30,000 this season. 250,000 cans at least were put up by the factory. The fruit White company of El Paso made a contract with the Hondale factory for \$15,000 worth of the canned goods, besides there were shipped car loads to Lordsburg, Silver City, Hurley and Santa Rita, as well as other places, and Deming also received a supply.

E. D. Osborne and Dr. Bowen conducted the enterprise that has made success in Hondale, and Mr. Osborne has expressed a desire to establish a cannery at Deming, thus giving it much larger number of growers next year. This season was short at both ends and the yield was correspondingly light. Yet the Hondale canning factory made a conspicuous success this season.

Next year's crop can be sold by contract before it is canned, as the dealers are willing to advance the money for the canning.

The Hondale cannery finished its work for this season today, and the plant will be closed. The whole Hondale community turned out Saturday and a splendid chicken dinner was served in the factory building to the officers and managers of the association, and the employees of the factory, as well as all who were interested in the enterprise. There were many of the farmers who furnished the product to the cannery at \$14 a ton, who enjoyed the sumptuous dinner, and everybody in town was rejoicing over the success of the Hondale canning factory, which brought a great deal of cash into the community.

**AVIATOR TO FLY AT  
ARIZONA FAIR HAS HAD  
MOST EXPERT TRAINING**  
(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.)  
Phoenix, Ariz., Nov. 2.—Aviator O. E. Williams, who will fly at the Arizona state fair, November 15 to 20, obtained his international license from the flying school at Hendon, England, the same institution that, since the opening of the war, has turned out nearly 2,000 expert aviators who have done yeoman service in the cause of the allies since the beginning of the conflict at Warrimoor. The Canadian who single-handedly destroyed a giant Zeppelin was a graduate of the same school. Williams uses the same methods in flying that have proved so successful for the Hendon men. His latest feat, which he accomplished in his most sensational flight during his week's stay at the Arizona state fair.

**Artesia Guardsmen Move.**  
Artesia, N. M., Nov. 1.—The Artesia militia company has moved into its new home on West Main street, in the building formerly occupied by the Owen McClay furniture store. The new quarters are undoubtedly the best occupied by any company in New Mexico, excepting in the state armories. In the front hall, forty by sixty feet, is a drill hall, and in the back of the drill hall is the locker room, where all lockers containing property issued to the men are stored. Overhead are the shower baths and officers' quarters, and in the basement is the store room. It is lighted throughout by electric lights, and the drill hall will be used for roller skating and dancing.

## TULAROSA MAN HAS PAINFUL ACCIDENT

Tularosa, N. M., Nov. 2.—Albert Sandoval of Tularosa, recently met with a very painful accident and one that may cause him to lose the sight of one eye. He was driving a four-horse team, one of the lead animals of which happened to be a mule, balked. Sandoval struck at it with his long whip, the lash hit a twig over his head and turned, striking Sandoval in the eye.

Dr. Miller, formerly of Otero county but who has been employed for the past few years in Old Mexico by a mining company, has again located in Otero county, this time at Tularosa. Dr. Miller's experiences in Old Mexico were very exciting.

## LIQUOR LAWS ARE OPEL MOLTED IN WAGON MOUND OF NEW MEXICO

Such Is Report Made by Grand Jury of Mora County; Gambling Also Charged and Officers Urged to Do Duty.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.)  
Santa Fe, Nov. 2.—The evidence that has been produced before the grand jury in Mora county, has been so convincing as to show that there has been a flourish and almost open violation of the liquor laws in Wagon Mound, said the report of the Mora county grand jury in Mora during the recent term of the district court. Gambling and the selling of intoxicating liquors have continued there, notwithstanding the fact that the community has voted for prohibition of the liquor traffic. The report goes on: "We have returned a number of indictments against alleged violators of the law. We urge upon the peace officers of the county the strictest possible enforcement of the law prohibiting the sale of liquors in dry territory."

The grand jury returned twenty-two true bills and nine no true bills. November 12 has been set by Judge David J. Leahy as the date upon which he will hear in Las Vegas arguments upon the motions of Manford S. Bentley and John K. Burke, counsel of maintaining and defending or killing cattle. The evidence shows which these men were convicted was said to be rather flimsy, and they both are out on bond waiting the decision regarding a new trial.

The recent term of court in Mora county was remarkable for the fact that not a single indictment was secured by any of the defendants, making what District Attorney Charles W. O. Ward called a "clean sweep." Details of the various cases appeared in the Journal at the time of the trial. In one case the jury cleared, that of the state against Albert Casados, Mrs. Alberto Casados, Leon Pacheco and Mrs. Leon Pacheco, for larceny from a dwelling.

## TWITCHELL AND READ AGREE AS TO TIME OF FIRST PRESS' ARRIVAL

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.)  
Santa Fe, Nov. 2.—Col. Ralph E. Twitchell and Benjamin M. Read agree with the time of the first printing press in New Mexico was placed in the Palace of the Governors in 1834 and on it from the palace was printed the first newspaper in the United States west of the Rocky Mountains. The contention that it was Santiago Abreu who brought the first press into New Mexico in 1835, from Chihuahua, is emphatically denied, and Mr. Read today offered \$50 for any proof that it was Santiago Abreu who brought the press with the importation.

Says Bloom in "Old Santa Fe": "Of more historic moment is the fact that Barreiro was the one who seems to have introduced and introduced into New Mexico the first and only printing press of Mexican times. It will be remembered that he had stood for deputy to congress successfully in February, 1831. In his little historical source, Ojeda sobre Nuevo Mexico, which three months earlier had issued from a press in Puebla, he had mentioned the absence of any press or periodicals in New Mexico; and as early as February of 1831 he had said: 'Others had acquired the press from Barreiro in the fall of 1834. In the summer of 1835 it passed into the hands of Padre Martinez, who used it probably until late in 1843 when he sold it to Don Juan Vigil. That Juan Maria Baca served as printer during all these years suggests that he had been acquired originally from Mexico by the possession and use of this famous little press was without question an important factor in winning for Barreiro a second term in congress, the only one during our period who was re-elected. The tradition recorded by Greer that Padre Martinez, elected with this press is probably incorrect, possibly through a confusion of him and Barreiro."

**Kansas Man Knows Good Thing.**  
Artesia, N. M., Nov. 2.—The comparative values of Kansas and New Mexico lands are well illustrated in a trade closed here today whereby W. H. H. Wells, of Woodson county, Kansas, gets 120 acres of irrigated land five miles north of Artesia in exchange for 320 acres of land in the Kansas county. Mr. Wells considers that he made a good trade, and certainly has a fine piece of land. He and his family will move to the Pecos valley about the 15th of this month, and will make their home in Artesia.

**To Fight Predatory Animals.**  
Santa Fe, Nov. 2.—Ross McMillan leaves this week for the Santa Clara country in the Santa Fe forest to assume his new duties of warfare on predatory animals. The appointment comes from the department of agriculture and is part of the plan for the extermination of animals that prey on cattle and sheep, especially coyotes, wolves, bear and mountain lion. Mr. McMillan's previous experience as forest supervisor will come in handy in good stead. He will take with him a number of specially trained hunting dogs. Mr. McMillan is a son of the late Supreme Court Justice Daniel H. McMillan.

**FOR RENT—Room, 7520, facing alley in business section. Suitable for plumbing or shoe shop, or storage; heat and water included. Apply this office.**

## FORGERY TRIAL TAKES INTERESTING TURN

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.)  
Santa Fe, Nov. 2.—The trial of Roy Hamilton, a negro mail carrier, on the charge of forging the signature to a money order, assumed an interesting shape before it went to the jury. The question eventually was not whether he forged the signature to the money order but whether he forged a letter of authorization to cash the money order purporting to have been signed by the payee.

Henson was the mail carrier from Hachita, Grant county, south to the Mexican border. He was entrusted with a \$50 money order by the mother of a trapper stationed along the border. The trapper, however, he never received the money order. Hamilton admits cashing the order but the postmaster has on file an order authorizing Henson to cash it.

An interpreter this forenoon referred to the defendant as "black mail."

In translating from the Spanish, the words "colored mail carrier." Hamilton, who defends himself, admitted he made the first delivery to a jury in his career, being a recent graduate of the University of Michigan, a son of the late territorial secretary and United States Indian Agent B. M. Thomas. The case went to the jury tonight.

**MADE OVER AGAIN.**

Mrs. Jennie Miner, Davidson, Ind., writes: "I can truthfully say Foley Cathartic Tablets are the best I ever used. They are so mild in action, I feel like I have been made over again. Good health has no greater enemy than constipation. Foley Cathartic Tablets keep the stomach sweet, liver active, bowels regular, banish all nervousness, sick headaches, sour stomach, stout persons welcome the light, free feeling they give. Sold everywhere."

**WONDERFUL SERIES OF  
TRAILS IS COMPLETED**  
(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.)  
Santa Fe, Nov. 2.—With the completion of the forestry trail up Santa Fe canyon to the top of Lake peak, 12,248 feet in altitude, the United States has completed the connecting link of a series of trails and roads that must be counted among the most wonderful in the world. The tourist for instance can take the Santa Fe trail up to the top of the Lake peak and return down the Tesuque canyon trail, making a circle trip of thirty-five miles of magnificent mountain, forest and canyon scenery, or ever changing vistas, some of them covering as much as 30,000 square miles.

More than that, in one direction from the Santa Fe trail, branches off the scenic highway and the Indian creek trail to the Pecos, while from the top of Lake peak runs the Windor trail to the Panchuello, Huerfano mesa and the headwaters of the Pecos, there connecting with the Hermit's peak trail to the Gallinas canyon and Las Vegas, while another trail and road takes the tourist to Mora and still another south by way of United States hill, Trampas, Chama and other ancient and quiet settlements. From Santa Fe, of course, the road to the cliff dwellings and a network of forest trails opens up the Jemez and Sulphur country and runs up to Ojo Caliente and into Rio Arriba and San Juan counties.

**October Sunshine Record.**

Santa Fe, Nov. 2.—Eighteen days with 100 per cent of sunshine; not a day with less than 15 per cent, and an average of 60 per cent. For the month, that is the sunshine record for October at Santa Fe, according to the United States weather bureau. The precipitation was only .94 of an inch. The lowest temperature was 31 degrees and the highest 73 degrees. The average maximum was 65.4, the maximum on no day having been less than 52. The average minimum was 35.6. The relative humidity was only 32 per cent at 6 p. m. The greatest daily range was 32 degrees on October 19 and the least 16 degrees on October 15.

**STOP CATARRH! OPEN  
NOSTRILS AND HEAD**

Says Cream Applied in Nostrils  
Relieves Head-Colds at Once.

If your nostrils are clogged and your head stuffed and you breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Al! how good it feels. Your nostrils are open, your head is clear, no more hacking, sniffing, blowing, no more headache, dizziness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and stinging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It's inexpensive and never fails to do the work.

## CAMERA CLUB PLANS PHOTOGRAPHIC EXHIBIT IN OLD PALACE SOON

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.)  
Santa Fe, Nov. 2.—An exhibit of photographs will be given by the New Mexico Camera club beginning November 15 and continuing to November 27, in the Palace of the Governors. A committee has been appointed consisting of Sheldon Parsons, Theodore Asplund and Carlos Viera to have charge of the exhibit which will be for amateurs only.

The camera club now numbers forty-eight members and is making arrangements to fit up its own quarters, including a reception room and dark room facilities. At its meeting last evening it elected Theodore Asplund custodian. The club also decided upon weekly outings, the first up the Santa Fe canyon and the second to the excavations on the Arroyo Hondo by N. C. Nelson.

## MILNE FOR PRESIDENT OF STATE TEACHERS IS DOPE FROM SANTA FE

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.)  
Santa Fe, Nov. 2.—A formidable movement has developed to elect John Milne of Albuquerque to the presidency of the New Mexico Educational association at its meeting in Thompson's week. Mr. Milne is in no sense a candidate, however.

Friends of superintendence of Public Instruction Alton N. White, upon electing him to the presidency, but the matter of politics is being injected into the movement which may setback it.

## SYRUP OF FIGS FOR CROSS, SICK, FEVERISH CHILD

If little stomach is sour, liver torpid or bowels clogged.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can't cause injury. No difference what age your little one, if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember a gentle "inside cleanser" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

## CLEANING DAY

A wearisome task—a day of dirt and dust.

Such days are passing from most homes. Over 100,000 housewives are keeping the house clean in the 20th century way.

They use the Frantz Premier Electric Cleaner.

An hour's use of this cleaner is better than a day of broom and duster—better for all the family.

Boscoe eats snakes, but this little machine eats dust and dirt and takes as a relish matches, tooth-picks, hair ravelings and threads.

Costs but 1½ cents per hour to operate. With a Frantz Premier at \$25.00 you cannot afford to continue in the "old way" of Cleaning. Ring up 98 and arrange with our representative for a free demonstration, terms, etc.

We Rent These Cleaners at \$1.00 Per Day
